

# QUIET IN – QUIET OUT

With so many Sledders outfitting their snowmobiles with cans and pipes we have heard many noise complaints from residents in our rural communities. Therefore, our clubs will be locating QUIET IN – QUIET OUT signs as you enter communities as a reminder to snowmobilers to operate sleds quietly and with respect. We ask that you read, understand and obey the QUIET IN – QUIET OUT signs. Understand it's our privilege and not our right to have access to all the communities that serve us; we don't want to lose access to any snowmobile areas.
